44-36 Vernon Boulevard Building RFI

The New York City Economic Development Corporation ("NYCEDC") – on behalf of the City of New York (the "City") and in coordination with the New York City Department of City Planning ("DCP") and New York City Public Schools ("NYCPS") – is releasing a Request for Information ("RFI") to solicit ideas regarding the adaptive reuse of the City-owned building at 44-36 Vernon Boulevard (the "Vernon Building") in Long Island City, Queens, to address key priorities of Long Island City ("LIC") residents, community members, and other stakeholders. The RFI encourages responses from teams (including for- and non-profit organizations) that propose concepts or plans to redevelop all or a portion of the Vernon Building for adaptive reuse. Situated along 44th Drive and facing LIC's East River waterfront, the Vernon Building is a large, six-story warehouse structure currently owned and occupied by NYCPS. Totalling nearly 700,000 gross square feet, the Vernon Building has the potential to be redeveloped to support a mix of office, cultural, industrial, retail, and community-serving uses.

NYCEDC, DCP, and NYCPS will review complete, responsive proposals to redevelop all or a portion of the Vernon Building through adaptive reuse and may choose to publicly release summaries of those proposals. The City will not select a development team from the RFI, but rather anticipates learning from the RFI responses to inform future approaches to the Vernon Building.

To download a copy of the solicitation documents, please visit edc.nyc/RFPs

Please be aware that all potential updates and notifications will be sent via email to respondents who have accurately and completely filled out the download form or have picked up the relevant documentation.

In addition to downloading the RFI, you may also be interested in signing up to be listed as a potential subcontractor or supplier for companies responding to our development and procurement opportunities.
