Tutor Perini to be Awarded \$1.871 Billion Staging and Storage Facility and Ramp Structure for the Midtown Bus Terminal Redevelopment

NEW YORK-- Tutor Perini Corporation (NYSE: TPC) (the "Company"), a leading civil, building and specialty construction company, announced today that the Port Authority of New York and New Jersey's Board of Commissioners has voted to authorize the award of a \$1.871 billion contract to Tutor Perini Corporation to construct the Staging and Storage Facility and Ramp Structure components of the Midtown Bus Terminal Redevelopment Program in New York City. The scope of work includes construction of a new modern seven-floor steel-clad storage and staging facility located between 9th and 10th Avenues and between West 39th and West 40th Streets, which will accommodate indoor storage for up to 350 buses and will serve as a temporary bus terminal during future construction of a new main bus terminal. The project scope also includes construction of an innovative ramp structure encompassing the block bounded by 10th and 11th Avenues and 39th and 40th Streets, which will allow buses to move into and out of the above-grade bus levels of the replacement facility to and from the Lincoln Tunnel.

"We are excited to be a part of this transformational project, which will significantly improve the quality of life and regional transportation for commuters throughout the New York City metropolitan region," said Gary Smalley, Chief Executive Officer and President of Tutor Perini. "Tutor Perini has a long and successful track record of partnering with the Port Authority to deliver large, complex transportation infrastructure projects, including most recently Newark Liberty International Airport's Terminal A. We look forward to continuing to partner with this important customer to successfully deliver this latest project."

Work is expected to begin in the fall of 2025 with completion of the currently scheduled and funded work anticipated in the fall of 2028. The contract value will be added to the Company's backlog in the second quarter of 2025.

Statement from NYS Gaming Commission Chairman Brian O'Dwyer

Statement from NYS Gaming Commission Chairman Brian O'Dwyer

On behalf of my fellow Commissioners and the Gaming Facility Location Board, I welcome the eight applicants to Develop and Operate a Gaming Facility in New York State to the competition. The Commission and Board are committed to ensuring the casino siting process is fair, transparent, competitive, deliberative, and beneficial for the State of New York.

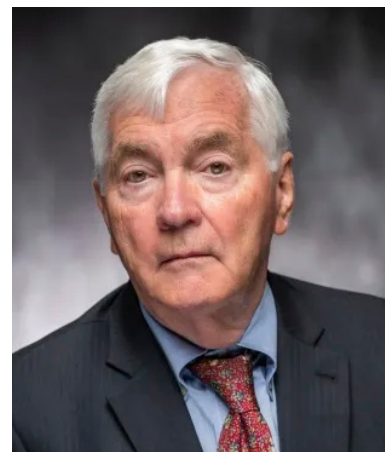

This is a tabula rasa – there are no frontrunners or favorites. These eight proposed projects represent billions of dollars in private investment, thousands of jobs, and amenities in addition to a world-class casino – all things that can transform a community. That's why each project must obtain all local entitlements, including zoning approval, and be approved by a specific Community Advisory Committee of appointees of the elected officials representing the proposed facility's location. Only those projects that meet both statutory requirements – zoning and Community Advisory Committee approval – by September 30, 2025 will be considered by the Gaming Facility Location Board. This ensures that only those projects embraced by the community are placed before the Board for consideration.

Appointing authorities for all eight projects have been notified of their obligation to make appointments to the Community Advisory Committees as soon as possible, as Committees are expected to be up and running in the coming weeks. Through the summer, Committees will hold public hearings to gauge support and/or opposition to their respective project, and formally vote whether to advance the project for Board evaluation. Those projects that are not approved by their Community Advisory Committee will not advance.

The Board will evaluate those projects approved by their Community Advisory Committee and select up to three projects by December 1, followed by Commission licensure. This ensures that New York State will collect the already-booked casino license fee(s) ahead of schedule.

As the Board has stated in the Request for Applications, the revenue from new gaming facilities is expected to benefit New York's public schools, mass transit, local governments, and problem gambling treatment services. The jobs created by these casinos are expected to deliver livable wages to help families live, stay, and prosper in New York.

We look forward to a competitive process with active community engagement for all proposals.
