The New York State Insurance Fund is in the process of gathering information on Real time or Instant Bank Account verification. There will not be a contract award for purchase of services or products directly resulting from this RFI. However, we may use this information garnered from the RFI process in future procurement(s). MBDA Manhattan Center Strategic Partnership with Minority Commerce Weekly Highlighting the Nation’s MBEs

Business Outreach Center Network- MBDA Manhattan Program Assistant
Featuring Icon Parking Manhattan MBDA Business Center client

Under John Smith’s leadership, Icon Parking has become the largest and leading minority-owned parking and transportation company. The business was also certified as a Minority Business Enterprise in July, making Icon the largest parking and transportation services provider in the country to receive this official certification.

Smith, the company’s president, and CEO, has been an integral part of the business since January 2020 before acquiring the company in March 2023. He has made plans to turn the company into a force to be known nationally, accelerating its commitment to EV infrastructure, and promising to add 2,000 EV charging units to its portfolio of nearly 200 garages in NYC. The company also plans to expand into top gateway cities such as Los Angeles, Atlanta, Boston, Chicago, Dallas, San Francisco, Miami, and Washington D.C.

“The big three [Ford, General Motors, and Chrysler] have committed by 2035 they’ll stop building combustion engines and you can wait as a competitor industry player to get there or you can lead, and we decided to lead,” Smith said. “We think it’s important for our company to be conscious of the environment, conscious of a whole host of things, that one, matter to our customers, matter to our team to not only just be seen, but to be a good corporate citizen.”

To produce exceptional customer service, Icon says it uses digital and advanced analytics to provide parking operations, management, and related services to clients through extraordinarily engaged team members across Commercial Office Buildings and Real Estate, hospitality, Food and Beverage, Municipalities, Sports and Entertainment, Retail, and Healthcare.

Icon is an operating business consisting of over 1,100 team members that are highly passionate, committed, and diverse. The team is represented by 30 different countries with 99% of the field team members are minority and 64% in their Support Center.

Icon’s mission is to simplify city life, one customer at a time by connecting them to where they live, work, and play; and believes, “Parking is just the start!”

“As a leading parking management and transportation services provider in one of the most complex parking markets in the world, Icon is uniquely positioned to leverage its brand -- with 76 years of operating history along with its new digital...
and advanced analytics platform -- to accelerate the transformation of the US parking industry,” said Smith, “When you combine our leadership talent, operating scale, and capabilities with minority ownership, it affords us access and opportunity to harness this tremendous growth opportunity.”

Buying the company was less about getting into the parking industry and had more to do with the land the facilities were sitting on. When Smith saw that Icon controlled roughly 5 million sq ft of NYC, he didn’t just see parking, he saw an asset that could allow him to take Icon Parking to another level.

“It’s this asset that inspires the question, ‘What could you do if you controlled 5 million square feet under New York City where New Yorkers live, work, and play?” Smith said. “Given my experience with business transformations, digital technology, analytics, and coming out of hospitality and retail, we believe we could apply that same playbook to parking because the garage in our mind is just a hotel for cars,”

Smith says he was met with disbelief when he told the previous owners of Icon that he wished to buy it. They immediately assumed he didn’t have the money and believed he wouldn’t be able to raise it. This reaction offended Smith, after all, he was able to run the company as CEO for three years before becoming the owner and believes he wouldn’t have gotten that same reaction should he have been white. Two weeks later, Smith was able to acquire the capital to purchase Icon through equity partner and MBE-certified fund Arkview Capital, which also surprised them.

“Even with a Harvard MBA, electric engineering degree, been in a C-suite public company, sitting on the public board and turning that company completely around three years, even then, I still was faced with I think was a slight hand of racism,” Smith said. “With all that pedigree and background performance, they still thought I couldn’t do it, and when I came back in two weeks with everything this completely threw them for a loop.”

Smith’s most recent positions include Chief Operating Officer of Aaron’s Inc., a $4B publicly traded solutions provider of furniture, electronics, and appliances; and President, Mid-North Region, and CEO of Harrah’s Resort AC of Caesars Entertainment Corporation, the then $8B publicly traded hospitality and entertainment corporation that owned and operated over 55 casinos, hotels, and resorts.

“John and his team have transformed Icon, disrupting the parking industry with an unsurpassed customer experience, and unique digital and analytics capabilities, creating the perfect platform to scale nationally,” said Joon Chang, a Co-founder of Arkview Capital. “Under John’s stewardship, we are excited to invest in Icon’s growth, as they are poised to capitalize on new revenue opportunities nationwide.”

WDF supports hiring Section 3 of the Housing and Urban Development (HUD) mandate that requires employment and other economic opportunities generated by federal assistance to public housing authorities to be directed, whenever possible, to public housing residents and other low and very low-income residents to work on all of our New York City Housing Authority (“NYCHA”) projects. WDF supports hiring Resident Employment Program (REP), which requires that 15 percent of the labor amount of NYCHA construction contracts greater than $500,000 be spent on resident hiring. To that end, WDF’s approach to meet NYCHA Section 3 requirement and our past Section 3 performance has been to commit to working with Resident Economic Empowerment Sustainability Department (REEE) to source Category 1 and 2 residents.
